SUMMARY

Results-driven IT professional with expertise in full-stack web development and UX/UI design. Proven track record of designing user-centric interfaces in Figma and building scalable web applications using React, Next.js, and Node.js. Adept at integrating third-party APIs and implementing secure authentication systems to enhance platform functionality.

EXPERIENCE

Full-Stack Developer

NeoKids Pro

January 2026 – Present, Remote / Freelance

- Deployed NeoKidsPro.in, a responsive pediatric clinic website using WordPress, Elementor Pro, and ACF, featuring 10+ custom pages, widgets, and CMS-driven components for booking and content management, reducing manual appointment handling by 40%.
- Architected Neo Kids EMR using Next.js, Node.js, Express.js, MySQL, and Prisma, consolidating patient records, prescriptions, appointments, and invoicing across 2 portals, cutting administrative workload by 50%.
- Enforced JWT authentication and RBAC across 2 user roles, integrating 3 third-party APIs (Cashfree, Meta WhatsApp Cloud API, Google Calendar) to fully automate payments, scheduling, and patient communication.

Social Media & Content Designer

Pediatrician Instagram

august 2025 – March 2026, Remote / Part-Time

- Designed content assets including reels, carousels, and educational graphics, maintaining 100% on-schedule delivery.
- Scheduled and managed a content calendar, ensuring consistent weekly publishing across all formats.
- Partnered with 3+ pediatric experts to co-develop educational campaigns, broadening community reach and establishing credibility among 1,000+ parents.

PROJECTS

Nexus – Learning Management System

Live / [GitHub Repository](#)

September 2023 – March 2024

- Engineered a full-stack LMS featuring 2 dedicated dashboards, supporting end-to-end course creation, enrollment, and progress tracking for 5+ platform features.
- Delivered 5+ platform features including authentication, course administration, and reporting, supporting full learner lifecycle management.
- Delivered responsive React and Next.js interfaces with RBAC, protected routes, and secure access control across 2 user roles.

Notion-Inspired Productivity Platform

Live / [GitHub Repository](#)

November 2023 – February 2024

- Designed a Notion-inspired productivity platform with 5+ workspace modules covering document creation, nested hierarchies, authentication, content management, and real-time sync.
- Integrated Clerk authentication and Convex backend for secure access control, real-time database operations, and scalable full-stack architecture.
- Streamlined 5+ document workflows — creation, editing, and retrieval — reducing navigation time by 30%.
- Built responsive React and Next.js interfaces with dynamic state management and low-latency updates.

EDUCATION

B.Sc. Information Technology

SIES College of Arts, Science & Commerce • Sion • August 2021 – May 2024 • 9.2 / 10

CERTIFICATIONS

UX/UI Design (Figma) – Udemy (2024) , Responsive Web Design – freeCodeCamp (2023)

SKILLS

Design: Figma, Wireframing, Prototyping, User Flows, Visual Design, Responsive Design

Frontend: React, Next.js, TypeScript, JavaScript, Tailwind CSS

Backend: Node.js, Express.js, Prisma ORM, MySQL, REST APIs, JWT Authentication

Tools: WordPress, Elementor Pro, Git, GitHub, SEO
